PRECISION PRO

Infrared zero gap bonding interactive screen

Android 11.0 | SBIR11

| 65" | 75" | 86" |

Relive the interactivity.
Better performance, more features.

New, more
intuitive interface

A multitude of
new features

Integrated
Bluetooth and
dual Wifi system

10x faster
internet speed

**You won't want to work
any other way.**

An even more intuitive interactive experience. With a revamped interface and access to new features, enjoy improved accessibility from the home screen. Benefit from the new utility functions and its instant writing precision.

Take advantage of new features in a single gesture.

Equipped with Bluetooth to connect your equipment wirelessly

Screen secured by a 6-digit code system

Internet 10 times faster with a speed of 1000 Mbps

Dual Wifi system integrated: Wifi connection and hotspot function for your other devices

Blue light filter

Lowering of the screen to adapt to the smallest

Exclusive whiteboard design by SimplyTab

Video recording

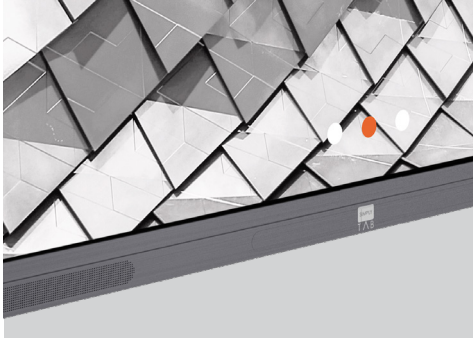

Sending by QR Code of your annotated documents

Swipe from Android to OPS

FUNCTIONNALITIES

Brushed aluminum design

Revamped carousel with more features accessible from the home page

Easy and immediate connection on the front of the screen (USB, USB C, HDMI and USB Touch)

An easy user path for optimized use.

Designed to be more adaptable to business and educational use. Enjoy smoother navigation and optimize your use for efficient work.

Adapt your screen to the smallest

This new feature allows everyone to use the interactive screen.

From the Android interface to Windows in one gesture

Swipe from the Android interface to the Windows interface with a gesture.

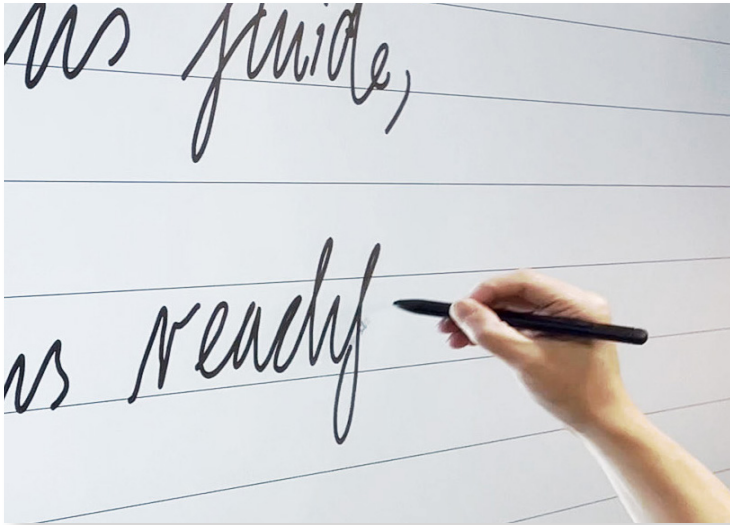

Android whiteboard even more fluid

Get your annotations directly on your device by QR Code

Windows pen protocol function

Automatic distinction between finger and stylus: edit the PPT with your hands and annotate with the stylus automatically.

Precision and comfort of writing

Ideal interaction without latency. Its high writing precision associated with its zero gap bonding technology provides a real fluidity of navigation and a touch as close to reality as possible.

Connectivity with your devices

Relive your video conferences with the InCast 4K transmitter. Without moving, control your video conference from your PC projected on the interactive screen and benefit from the cameras and speakers connected to your screen. Enjoy a tenfold connectivity for immersive wireless video conferencing.

Your pre-installed software on Android

InCast
Instantly duplicate your screen and interact together on your devices

InQuiz
Easily create interactive quizzes, polls and votes

Whiteboard
Annotate, draw, brainstorm and more

InStore
A wide selection of applications available to install on your screen

Available on Windows

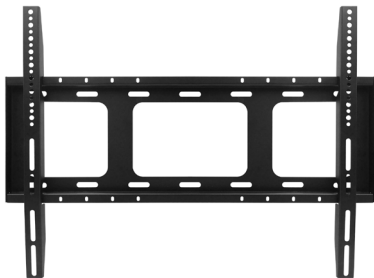

InBoard
The white board with more features

InCast Pro
InCast with more features, more power

INCLUDED ACCESSORIES
